R. O. 178.—R. P. B.—8 1920.—1,000.

Copy of a letter No.11537, dated the 22nd October 1920, from the Sanitary Commissioner with the Government of India, to the Secretary to the Government of India, Department of Education.

---:O:---

I have the honour to state that I have consulted Provincial Sanitary Commissioners with regard to the proposed informal conference and have received replies from all except the Sanitary Commissioner of Bengal.

2. There is unanimity in wishing the conference to be held in Simla during the week beginning December 13th. Simla is suggested owing to the very real difficulty which will be experienced in obtaining accommodation in Delhi. Simla may be inconvenient if a representative of the Department of Revenue and Agriculture is to attend the discussion on quinine. The attendance of a representative is not absolutely essential, as after the Conference I should be able, if desired, to discuss the matter with a member of that Department.

3. I attach a provisional list of subjects for discussion, and would suggest that the Conference is permitted to discuss the modification of Port Health Regulations. It would be possible to rearrange the rules and to make urgent amendations. Final revision could be made after the receipt of the new International Convention, which, however may not be signed and ratified for some years to come.

4. I suggest that the provisional agenda be sent to Railway Board and Foreign and Political Department who may be asked if the Chief Sanitary Officers of the more important railways and the principal Indian States would care to attend: and, if they would intimate to me at as early a date as possible any subject on which they would like a discussion.

---:O:---

"C O P Y"

Provisional agenda for third informal Conference of Sanitary Commissioners to be held in Simla during the week beginning December 13, 1920.

---:0:---

1. Improvement in registration of vital statistics.

2. A quinine policy.

3. Amendment of port health regulations.

4. A public health policy for India.

   (a) Health Departments.
   (b) Health Boards.
   (c) Port Sanitary Authorities.
   (d) Sanitary services and their relation to medical services.
   (e) Voluntary organisations with special reference to central and provincial leagues for maternity and child welfare.
   (f) The desirability of consolidation of existing public health legislation.
   (g) The necessity for adequate provincial laboratory organisation for preventive medicine as distinct and apart from therapeutic medicine.

5. The utilisation of epidemiological units.

6. The interchange of information on health matters, between military and civil units.

   (Lieut. Col. Barrow - D.M.S. (Sanitary) will attend for this item).

7. The advisability of a Midwives Act.

8. The desirability of substituting mechanical appliances for manual labour in view of the growing scarcity of sweepers for conservancy work.

9. The procedure to be adopted in enquiry into the efficacy of bacterial vaccines.

10. A survey of the influenza pandemic.
